Professional Experience

AECOM

June 2023 – Present

Transportation Planner, Deputy Project Manager

Phoenix, Arizona

- Served as a Deputy Project Manager across multiple projects, serving as a client liaison, coordinating stakeholder meetings, presenting technical findings to agency, municipal, and state clients, and assisted with project budgets and timelines.
- Directed planning and GIS analysis efforts on major projects including the City of Mesa Transit Master Plan Update, City of Fort Worth Master Transportation Plan, ADOT Corridor Profile Studies, McAllen BRT & TOD Study, and GCRTA Strategic Plan Update.
- Conducted origin-destination (OD) and travel pattern analysis using location-based services (LBS) mobility data to inform multimodal corridor planning, transit service optimization, and TOD feasibility decisions for public sector clients.
- Developed public-facing interactive dashboards, StoryMaps, and web applications — translating complex planning data into accessible visual narratives for community stakeholders, elected officials, and agency clients.
- Built automated spatial analysis and data workflows across 10+ projects, reducing technical delivery time by up to 75%; developed GIS documentation standards, FAQs, and internal presentations to build team capacity.

AECOM

May 2022 – May 2023

Planning Intern

Phoenix, Arizona

- Supported GIS analysis and mapping for transportation and transit planning reports, building foundational skills in spatial data workflows.
- Assisted in Replica travel pattern analysis, crash data analysis, and service effectiveness analysis for transit planning projects.
- Developed interactive bilingual public outreach materials, supporting community engagement across diverse stakeholder groups.

Triple O Studio

July 2020 – June 2021

Junior Architect, Intern

Chennai, India

- Supported a segment of the Chennai Mega Streets urban revitalization project spanning 10 km in Chennai — contributing to conceptual design, technical drawings, and 3D modelling for architecture and urban design components
- Conducted infrastructure mapping and data collection for 10km of urban street network, integrating sewerage, water, and electricity systems using GIS and AutoCAD.
- Coordinated with 3+ sub-consultants and contractors on scope negotiation and task delivery; represented the firm at City Corporation meetings and public stakeholder engagement events.

Education

Westcliff University

July 2024 – November 2026 (expected)

Master of Business Administration, Financial Management

Arizona State University

August 2021 – May 2023

Master of Urban Planning

Umeå University

January 2019 – June 2019

Bachelor of Architecture (Exchange Semester)

Manipal Academy of Higher Education

August 2016 – June 2021

Bachelor of Architecture
